Profile

I have completed Engineering graduation, & currently I'm working at PnQ Technologies company, which is a child company of Net-Effect, Canada. There I'm working on & managing a complete project as UI Developer. Now my aim is to obtain a responsible and challenging Frontend, UI/UX Developer position.

I'm skilled in HTML5, CSS3, SASS, LESS, JavaScript, jQuery, Vue.js, React.js, Bootstrap-3/4, JSON, AJAX. I have used GitHub, Jira WordPress & Postman.

I have also done some projects which are attached to my Portfolio.

Education

Bachelor of Engineering (BE)
Padma Bhushan Vasantdada Patil Institute of Technology, Pune. (JSPM)
Pune

Professional Experience

PnQ Technologies
UI/UX Developer
Apr 2021 – present | Pune, India

- Working as a UI Engineer on PWC's one of the project with HTML5, SASS, JavaScript/JQuery & Vue.js technologies. For Content Management Solution, we use Adobe Experience Manager(AEM). & to manage packages & to edit files onsite use CRXDE. To generate a static local environment we use Middleman.
- For project management, use Agile methodology to complete a release. In a release cycle we break it up into several phases & deliver it in well-organized sprints.
- Workflow tracked, prioritized & organized with powerful tools like Jira & Confluence. Maintain close coordination with UX engineer, Backend developers, QA team, Scrum master & Project manager.
- Researched and proposed new solutions to make the website more user-friendly.
- Understands Business team's requirements with Scrum master & Project manager, & breakdowns task into multiple sprints and complete it with accurate sizing estimates.
- Write clean & reusable script.
- Verify updated changes by testing it in multiple scenarios and debugging it with different emulators, simulators. Like BrowserStack & SauceLabs.
